

CALC ONLINE - IMPORTANT DATES

DATE	DESCRIPTION
Continuous Entry Registration	
3 rd week of September until The final week of February	“Continuous entry” registration. Courses start when you register and can be completed in a minimum of about 3 months. The final week of May is the final deadline to complete your course/s. Unfortunately, many students wait until the final May deadline and are unsuccessful in completing their course/s on time.
Final week of Registration	
Final week of February	The final week of February is the last week to register for courses. Please be advised that if you register at the end of February, you will only have 3 months to complete your course.
Dropping a course	
1 st week of May	<p>If you are not interested on completing your online course(s), please send an email to make an official request for withdrawal from the course(s) before the Online Program Full Disclosure Date (1st week of May). Please note that if you do not submit a withdrawal request and do not complete the course, a failing mark will appear on your transcript.</p> <p>If you have not sent any assignments to your online teacher and/or have not been active in the course for 30 days prior to May 1, your account will be closed.</p>
Coursework submission deadline	
Final week of May	Please be informed that the last date to submit all course work and tests for the online credit(s) you are registered in is the final week of May. The Final exam must also be written by final week of May.
Final exam deadline	
Final week of May	<p>Students may schedule their final exam as soon as they complete their course/s. It is recommended that students complete their courses and schedule a final exam as soon as possible. However, The Final exam must be written by the <u>final week of May at the latest.</u></p> <p>Please note that we <u>might</u> be able to offer a Night session for those students who cannot come during our regular business hours to write the Final Exam. The <u>tentative date</u> for the Night session is May 31st from 6 pm until 9 pm.</p> <p><i>Note: students who wait until the Final week of May to submit their work and schedule their final exams will likely experience a 3 week delay in marking due to high volumes. <u>It is best to finish the course and schedule a final exam as soon as possible.</u></i></p>
